joseromerodesign.com

Senior product designer with 12 years in enterprise digital products, conversion optimisation (CRO), behavioural science and design operations. Embedded in IKEA's New Business Platform, where AI now runs through most of my work: agentic reporting, multi-agent design workflows, and facilitation that turns AI output into material teams can act on. I do my best work inside complexity: multi-market products, regulated testing, and processes that keep working when the team changes.

EXPERIENCE

Senior Product Designer (Implant) — Garaje de Ideas / Groupe EDG

2025–Present · Embedded in IKEA's New Business Platform (Ingka Group) · Zaragoza, Spain, English-speaking team

- **IKEA Home Services:** peer-to-peer marketplace for home improvement services, the product I joined for. Live in seven Spanish regions; 500,000+ downloads, 21,000 completed service requests and 4.9/5 satisfaction, per Ingka Group.
- **IKEA Second-hand Marketplace:** peer-to-peer resale of IKEA products, live in five European countries. One platform team now runs both products, and most of my work goes here.
- **Ways of working:** a design operations system across Figma, Jira, Confluence and Phrase, with a five-phase content workflow, explicit handoffs and localisation that can be checked in QA.
- **AI in the workflow:** reports, decks and dashboards built by agents in VS Code with GitHub Copilot, connected to Jira, Confluence and Microsoft 365; a multi-agent design workflow with human checkpoints, built on Shape Up; AI literacy sessions for senior designers at Garaje de Ideas.

Senior UX/CRO Designer — Flat 101

2022–2025 · Four to eight enterprise accounts at a time · Spain

- **Santander Nordics:** lead UX/CRO designer on a conversion programme for loans, cards and deposits in Denmark, Sweden, Finland and Norway. The redesigned application form became the default in all four markets.
- **Meliá Hotels International:** a campaign management platform designed from scratch over three years, running dozens of live campaigns across Meliá's international markets.
- **Mapfre:** UX for AFIN, the self-service app for investments, savings and pensions; Verti Italy and Germany on one design system; an agents directory live in Brazil, Peru and Nicaragua.
- **IQOS Club Spain:** project lead for ongoing CRO on Philip Morris's loyalty platform, applying behavioural economics.
- **XTI Store:** full e-commerce redesign within a Magento migration, designed in one month; the brand's main online store for about three years.
- **Also:** Mutua Madrileña +41% leads and AXA Spain +18% insurance contracts (published by Flat 101); experience, CRO and behavioural audits for Bankinter, Subaru Spain and Affinity Petcare.

Co-founder & Design Lead — Factor Común

2016–2021 · Havana, Cuba

- Co-founded a design and communications studio with two colleagues: 120+ projects across branding, editorial, digital interfaces, video and campaigns for institutional clients across Cuba, with clients, planning, suppliers and new business run on tight resources.

UI Design Professor — ISDi / University of Havana

2018–2021 · Havana, Cuba / Remote

- Taught UI design: curriculum, studio sessions, and explaining complex ideas to students at very different levels.

RESEARCH AND WRITING

- **BECO:** a knowledge graph of behavioural science that grades its own evidence: 420 DOI-verified sources and 243 concepts, explorable online.
- **Designing with AI:** an essay on human-led, agent-assisted product design.

SKILLS, TOOLS AND BACKGROUND

AI practice	AI facilitation · AI workflow design · Context and skill building · Agentic reporting · Designing in code · Knowledge systems
Design and research	Product design · UX research · CRO and experimentation · Behavioural economics · Design systems · Design operations · Stakeholder work across product, engineering and business
Tools	GitHub Copilot · VS Code · Claude · Figma · FigJam · Miro · Notion · Jira · Confluence · Phrase · Microsoft 365 · Optimizely · ContentSquare · Hotjar · Google Analytics · AB Tasty · VWO · Optimal Workshop · Neo4j · Python
Education	Five-year degree in Visual Communication Design · Havana, Cuba
Languages	Spanish, native · English, fluent and my professional working language
